

Free 3D visualization resources.

3D Models

TurboSquid: Access a diverse range of 3D models.

SketchUp 3D Warehouse: Share and download SketchUp 3D models.

Archibase Planet: Browse and download free 3D CAD models.

pCon.box: Customize and export furniture-based models.

BIMobject: Download free high-quality BIM objects.

BIMcontent: Browse BIM content and filter by product or manufacturer.

Bimstore: Find high-quality manufacturer BIM content.

Enscape Asset Library: Insert high-quality models directly into projects.

Modlar: Discover branded models and BIM content.

SketchUp Texture Club: Download SketchUp models and vegetation.

Polantis: Find manufacturer objects and plant models.

CGAXIS: Download a selection of free 3D models.

RevitCity: Access user-generated Revit content.

Free 3D: Find various 3D models, including low poly.

Materials & Textures

ambientCG: High-quality PBR and seamless materials.

SketchUp Texture Club: Free seamless rendering textures and materials.

Poly Haven: Photo-scanned seamless PBR materials.

Texture Box: PBR and seamless textures for interior and exterior projects.

cgbookcase: Restriction-free PBR textures with maps.

Share Textures: Copyright-free PBR textures with maps.

Public Domain Textures: Copyright-free textures up to 8k in PNG and JPG.

patternpanda: Photographed, seamless textures. Credit must be given.

Textures.com: Extensive collection of photorealistic materials.

3Dassets.one: Browse textures from multiple sites in one place.

CGAXIS: Free PBR materials. Registration required.

3dtextures.me: Search seamless 3D PBR textures with maps.

Polligon: Small collection of free high-quality textures.

Texturelabs: Free textures for personal and commercial use.

Texturer: Unique photographed textures.

Texture Ninja: Textures for use under the public domain.

Custom Models, Materials & Textures Software

Blender: Free, open-source 3D creation software.

Material Maker: A procedural PBR materials authoring tool.

Materialize: A free open-source standalone tool for creating PBR materials.

ShaderMap: Generate material maps from textures and 3D models (free for non-commercial use).

IES Lights

IES Library: Over 300k IES files on file from various manufacturers.

Philips: Search Philip's catalog of IES profiles and light fixtures.

American Electric Lighting: Find IES profiles for American Electric Lighting products.

Lithonia: Download individual light files or entire archives.

LA Lighting: Extensive resource for commercial and industrial lighting.

Skyboxes

Textures.com: A selection of indoor and outdoor HDR panoramas.

Texturify: Download environment panoramas and sky backgrounds.

Poly Haven: A large range of indoor and outdoor HDRIs.

CGTrader: Selection of free skyboxes, including futuristic backgrounds.

HDRHub: Free skyboxes. Attribution appreciated.

Sound Files

FreeSoundEffects: Free sound effects for personal and educational use.

SoundBible: Free sound effects for personal and educational use.

freesound: Sounds free to use under Creative Commons licenses.

Real-Time Rendering & VR

Chaos Enscape: Free real-time visualization for educators. Discounted licenses available for students and educational institutions.

Chaos Enscape is an industry-leading real-time visualization and VR tool for architects and designers.
